# Learning for Life

Supporting Adults for Inclusive Living (SAIL) is a program of the Southeastern Massachusetts Educational Collaborative that serves adults ages 22 and above. SAIL is designed to offer a broad range of specialized support services to facilitate the transition of young adults with developmental disabilities from school to work and from home to community. Individuals referred to SAIL have been identified as having service needs in one or more of the following areas: individual supports, employment supports and /or residential supports.

## Our Adult Services include:

- Job Development
- Life Skills Training
- Residential Support Services
- Community Inclusion Program
- Evening Program
- Employment Support Services
- Case Management Services
- Community Inclusion Program

**SAIL places a major emphasis on intergration, access and utilization of community resources in the delivery of services.**

SAIL provides instruction in functional life skills, applied academics, job skills, community experiences and independent living skills to enable persons with disabilities to secure gainful employment, to fully participate in their community and to live as independently as possible as adults. The SAIL team works closely and cooperatively with each individual's family when assisting the individual to obtain employment, secure appropriate housing and to fully access the community.
